## Experience

### Lead Lighting artist Zebu FX Bangalore

- Led development of a Solaris-based lighting workflow in SideFX Houdini, collaborating with pipeline to build a practical USD-based setup.
- Contributed to the studio's first large-scale creature and environment show, handling sequence and shot lighting within production timelines.
- Built and supported a lighting team, enabling artists to take ownership and deliver consistently.
- Worked closely with lookdev, FX, and comp to improve communication and reduce iteration.
- Owned sequence lighting and key shots, ensuring visual consistency and quality across sequences.
- Led the Unreal team, integrating Unreal Engine renders into the VFX pipeline.

#### Recent Projects-

- **Kantara** – Creature and environment-heavy show
- **Operation Safed Sagar** – Environment-heavy show

### Lead Lighting artist MPC Bangalore

Aug 2023 - April 2025

- Designed and optimized lighting workflows for shows and sequences.
- Led lighting dailies and reviews, ensuring high visual quality.
- Coordinated with CG and VFX Supervisors to maintain creative consistency.
- Conducted technical interviews and supported lighting team hiring.
- Trained and onboarded new lighting artists for seamless integration.

#### Recent Projects-

- **Primate** – High-realistic animals and environment lighting.
- **Snow White** – The Walt Disney Company project; worked on environment and character lighting.
- **Poacher** – Lighting for multiple animals with groom.
- **Halo** – Sci-fi environment lighting.
- **Goosebumps** – Worked on FX and creature lighting.
